

1 Most of the people that I know that take prescription drugs never even think about the side-effects.
2 They don't even read the little packaging on the side. They just want to take it and feel better.

3 Well, tonight I am going to point out some of the side-effects that you should really be paying attention
4 to. Number one; a little drug called alli. It treats weight loss. It's a weight-loss aid. Ok. Let's take a look at
5 the side-effects.

6 Number one: Oily spotting in your undergarments.

7 Where I come from, we call that shitting in your pants ladies and gentlemen.

8 If I went to my mother when I was a kid and said; "I think I got some oily spotting in my undergarments"
9 "You shit your pants again, didn't you? Son of a bitch."

10 Oily or fatty stools. What the fuck is a fatty stool? I mean what are you shitting? Midgets at this point.?
11 A little midget comes out and says Jesus Christ I am glad to be out of your ass. I can tell you that much!
12 Holy shit, I was stuck up there for a long time.

13 The reason they created this statement "Oily spotting in your undergarments" is because they don't
14 want to use "anal leakage" anymore.

15 Alli was the drug that basically invented anal leakage. I still like anal leakage. I think it is better.

16 It sounds like a heavy metal band from the 80's, doesn't it?

17 I saw anal leakage. Fucking excellent. I saw them with Nigel and Black Stool, man. It was excellent.

18 Anal-fucking-leakage.

19 Yeah, you're losing weight. It is coming right out of your ass.

20 Next, Cymbalta. Treats depression.

21 Take a look at the side-effects. I love this one.

22 Number one: hallucinations.

23 Number two: suicidal thoughts and attempts.

24 Isn't this why you are taking the drug in the first place? I'm so depressed. I'm soooo depressed. I need to
25 take something that is going to make me feel better.

26 Red, blistered, and peeling skin.

27 Now, I'm soo happy. My skin is peeling off. You could light a cigarette off my ball-sack, but I am so happy.

28 Vomit that looks like coffee grounds. Think about this. Vomit that looks like coffee grounds. Blaaach.
29 Bob, you want a cup of coffee? Let me see if I can puke up some cream and sugar for you, hang on.

30 Next. Viagra. All the guys go, "I dunno anything about this one. I hope this is funny. I don't know anything
31 about this, honey. Holy shit. Can't wait to see what Dennis has to say about this. I have always wondered
32 what this drug is about. I'm gonna find out now.

33 Now imagine you are a guy taking this for the first time. You open up the package and here is the new
34 symptom list in the order that they are listed.

35 Number one: headache.

36 Ah, don't care about that.

37 Temporary blindness.

38 Well, my wife isn't that good looking anymore anyways. That's probably a good thing. I don't mind being
39 Ray Charles for a half an hour or so.

40 Heart attack. Ah fuck that whole shit.

41 Chest pain. Who gives a fuck about that.

42 Death. I gotta...death? What wait a minute. What? Death? What the fuck?

43 Alright, let me go back. Temporary blindness, heart attack, death, I don't know about this.

44 Loss of hearing? Well she does talk a fuck of a lot. I know that much.

45 I don't know about this death thing. Oh, hang on a minute. Four-hour erection. No, I'm in, I'm in.

46 I don't care, I'll take the chance.

47 Their sales have gone up 25% since death began to be listed as a side-effect.

48 Think about what that says about the male libido.

49 Well, I might die, but I would die with a four-hour erection. Maybe I'll even beat myself to death with my
50 own cock. That'd be kind of fun.

51 The most famous one of these side-effects of Viagra and all of these penis drugs. They all say call your
52 doctor if you experience a four-hour erection.

53 Does anybody know any-fucking-guy that's called his doctor after experiencing a four-hour erection?

54 Except to say, doc, hey, yeah, I got one! You can get more of this shit, right? I'll call you back.

55 You call all your friends if you get a four-hour erection. Guys, bring a camera over. I gotta five-hour
56 erection going right now. And bring those horseshoes. I got an idea for a new game. Hurry up.

57 Let's go down to the batting cages. Watch this, I'm a switch-cocker. Throw me a curve.

58 Fucking men, we suck.

59 It's like they have that one now they call the weekender. You got a hard-on that will basically last all
60 weekend. Guys love this one, right? They don't even care if their wives are home. Just walking around
61 the neighborhood. 46 hours. Just look at this baby! 46 at a fucking romp. Yeah, I know. I put that
62 Louisville Slugger thing on their myself. It was my idea.

63 Next requip

64 Now, this treats restless leg syndrome. I am not really sure what that is. What I imagine is this thing, like
65 when your leg won't stop, right? That's gotta be it, right? Your leg won't stop shaking. Happens to all of

66 us if we have too much coffee or maybe you're a little nervous, right? We are all kind of familiar with this
67 thing. Look at this fucking side-effect.

68 May cause uncontrollable urge to gamble.

69 Do you think the Indians who run the casinos had any idea of helping out with this drug when they were
70 in development. We need something that will help them gamble their asses off.

71 We don't care if they have anal leakage. We will build toilets into the fucking seats at the blackjack table.
72 We just need them gambling. Un-fucking-believable. Restless leg syndrome. This is on the tip of what I
73 like to call the situations that are developing in America where we are inventing diseases now.

74 Restless leg syndrome. I'll let it go, I'll let it go. I am not going to get angry about restless leg syndrome.
75 But this one, Seasonal Affective Disorder. It's a true thing. Sad. I have it. It's not funny. I have sad. I do.
76 Every Fall when the leaves fall off the trees, it gets cold outside, I get very depressed. It's called winter
77 numb-nuts, alright? We all fucking experience it.

78 Drink a couple of beers put on some gloves and go out and shovel the fucking snow, alright? It's not a
79 disease. It's a fucking season, that's what that is.

80 You want SAD? I'll give you SAD. Shovel in the Face Disorder, how about that? What the fuck? The rest of
81 us are doing Irish jigs when there's 27 inches of snow falling on the ground. What the fuck? Seasonal
82 Affective Disorder.

83 They have one for the fat people, too. It's called PAD. Have you seen the ads on TV? Peripheral Artery
84 Disease. Yeah, I have PAD. I can't feel my feet. When I was a kid, they called it fucking gout, alright? It
85 means you are too fat. Stop eating. You're the size of the moon! Fucking PAD.

86 Nobody's fat. I'm physically challenged. I'm physically challenged, I'm not fat. By what? A fucking
87 sandwich? What are you challenged by? I have low self-esteem. I'm so tired of hearing about low self-
88 esteem. This bullshit is driving me crazy. They didn't have low self-esteem when I was a kid. You know,
89 my kids are both in college now. When they were growing up, do you know about this? Everybody gets a
90 trophy. Oh, I fucking hated this. Everybody gets a trophy. Yeah, that's the new thing. Worried about their
91 self-esteem and their feelings. Everybody gets a trophy.

92 You suck. Here's a trophy.

93 You really suck. Here's a bigger trophy.

94 You suck and you're fat. Here's a trophy made out of chocolate. You can eat it. We don't want to hurt
95 your feelings. When I was a kid, do you know how you got a trophy? By winning the championship-
96 fucking-game, that's how you got a trophy.

97 Well, there were two ways. You win the championship game, or you beat the shit out of the kid who won
98 the championship game when he was on his way home. They both lead to high self-esteem.

99 I have low self-esteem, I have low self-esteem.

100 Bipolar, that's the other one. I'm bipolar. Sometimes I am really happy and sometimes I'm really sad.
101 That's called Tuesday at my fucking house, alright?

102 You're bipolar? My mother was fucking tripolar, alright? She could smack one kid in the head with a
103 frying pan and call another kid a retard and kick the third kid in the ass all in a second and a half, alright?

104 No fucking pills!

105 Low self-esteem, bi-fucking-polar? Fuck you!
